

Race to the Asteroid Belt

The Dawn Spacecraft is traveling to asteroid Vesta and dwarf planet Ceres.
Who will be the first to arrive at Vesta and Ceres?

How to Play

1. Give each player a different marker. A marker can be a stone or a coin.
2. Place the marker on Earth to begin the game.
3. Flip a coin to move the markers along the asteroid belt path. "Heads" moves forward one space; "tails" moves forward two spaces.
4. Watch out for cosmic rays and meteors! You must land on Vesta and Ceres within an exact coin toss.
