Dawn Mission Outreach E-Bulletin, January 2009

DAWN MARS FLYBY WORKSHOP

JOIN US AT ONE OF OUR FOUR LOCATIONS - OR ONLINE

Four locations:

- Jet Propulsion Laboratory (JPL), Pasadena, CA
- Oregon Museum of Science and Industry (OMSI), Portland, OR
- Career Education Center (CEC), Denver Public Schools (DPS), Denver, CO
- NASA IV and V Facility Educator Resource Center, Fairmont, WV

On March 7, 2009, from 9:00 a.m. - 2:00 p.m., join Dawn scientists and engineers along with K-12 and informal educators from around the country in a set of unique, convergent workshops.

Dawn flies by Mars in February 2009, at which time the spacecraft will execute special maneuvers to shift its direction into the correct orbital plane for encountering its first target, the asteroid Vesta. During the workshop, Dawn mission science and engineering teams will share key updates and information with conference participants. Participants will explore interactive curricular materials and enjoy special, site-specific opportunities (touring JPL, for example) as part of this distinctive workshop.

For more information and registration, go to: http://dawn.jpl.nasa.gov/getInvolved/mga_ed_conf.asp

For a downloadable flyer, got to: http://dawn.jpl.nasa.gov/getInvolved/MGA_EdConf_Flyer.pdf

Registration deadline is February 28, 2009.

TELL US WHAT YOU THINK

The Dawn Education and Public Outreach team is continually seeking ways to improve the mission Web site and is eager to receive your feedback. Please share your thoughts by completing a brief survey at <http://vovici.com/wsb.dll/s/13d56g382d7?paction=resume>.

SUBSCRIPTION INFORMATION

Please forward this e-mail to others interested in NASA missions. We welcome new subscribers! Visit our Web site and join the Dawn mission e-news mailing list at http://dawn.jpl.nasa.gov/DawnMedia/e_news.asp.

Dawn Mission Outreach E-News features information about the mission, its outreach Web site, and products, services, and materials available from the Dawn Education and Public Outreach (E/PO) team. Dawn is the ninth Discovery mission in NASA's Science Mission Directorate and is a collaborative partnership made up of the University of California, Los Angeles; Jet Propulsion Laboratory; Orbital Sciences Corporation; Los Alamos National Laboratory; German Aerospace Center; Max Planck Institute for Solar System Research; Italian Space Agency; and Italian National Institute of Astrophysics. Dawn outreach materials are developed under contract by Mid-continent Research for Education and Learning (McREL), Denver, CO.
